- ❖ You should contact one of these clinics to book an appointment for your medical examination and/or obtain information about testing procedures and fees. Please have your medical examination performed promptly (preferably at least 3 weeks before the interview date), as we cannot issue a visa without a satisfactory medical report.

NOTE: Medical examinations conducted in connection with immigrant visa applications have a maximum validity of six months. If you cannot arrive in the United States within six months from the date of the medical examination, you may need to repeat the examination.

****The above list is in alphabetical order, and the U.S. Embassy in Yaoundé does not recommend a particular panel physician.***
